

## G20 SUMMIT IN HAMBURG SENDS CLEAR SIGNAL ON GLOBAL CHALLENGES

### THE HAMBURG UPDATE

The Hamburg Update is an overview of the G20's specific contributions to the 2030 Agenda. Under Germany's Presidency, all G20 work streams are helping to achieve the SDGs by agreeing new specific measures. By working more closely together and cooperating with civil society the G20 is making a collective contribution to sustainable development.

### G20 ACTION ON THE 2030 AGENDA

The Sustainable Development Goals (SDGs) of the 2030 Agenda are universally valid. That is why the members of the G20, like others, have committed to ensuring that their financial and economic policies are increasingly in line with ecological and social principles. The German 2017 G20 Presidency is taking the G20 Action Plan on achieving fair and sustainable development worldwide forward, thus tackling issues that are of vital importance for the future.

### REPORTING AND PEER LEARNING

The G20 is strengthening the implementation process for the 2030 Agenda. All G20 countries plan to report in the near future to the United Nations on their implementation of the SDGs. They are also sharing their experience in small groups so as to improve their performance.

### DIGITAL INCLUSION

#### TRAINING AND EMPLOYMENT FOR WOMEN AND GIRLS IN THE DIGITAL WORLD

The G20 #eSkills4Girls Initiative provides a platform for sharing knowledge and best practices for strengthening the digital skills of women and girls.

### ACCESS TO CAPITAL

#### FUND FOR FEMALE ENTREPRENEURS

The envisaged Women Entrepreneurs Financing Initiative will give women entrepreneurs better access to financial services. G20 countries are providing a total of 325 million US dollars for the initiative.

### HEALTH

#### STRONG HEALTH SYSTEMS TO FIGHT PANDEMICS

The G20 is committed to strengthening healthcare systems for universal health coverage with a view to preventing and fighting pandemics.

### SUSTAINABLE BUSINESS

#### PROMOTING SMALL AND MEDIUM-SIZED ENTERPRISES

The G20 is promoting financing models that help small and medium-sized enterprises in global supply chains to create fairer working conditions and comply with social and environmental standards.

### NEW G20-AFRICA PARTNERSHIP

#### FOR MORE INVESTMENT AND EMPLOYMENT

This regional focus on Africa is new for the G20. A core element of the initiative is the investment partnerships with interested African countries ("Compacts") to promote more private investment. The focus will be on areas such as renewable energies, employment and fair taxation in Tunisia, Morocco, Ghana, Rwanda, Senegal, Ethiopia and Côte d'Ivoire. Other G20 initiatives also have a clear Africa focus.

### ACCOUNTABILITY

#### REPORTING UNDER THE SDGs

The 2017 Accountability Report by the G20 Development Working Group demonstrates the extent to which the G20 has implemented its development-related commitments. This is the first year it will be set within the context of the 2030 Agenda.

### FOOD SECURITY

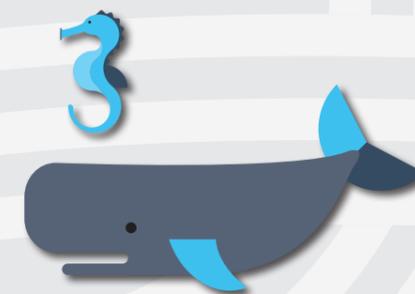

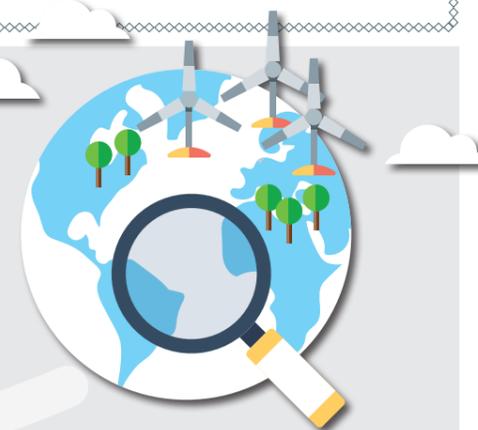

#### G20 INITIATIVE FOR RURAL YOUTH EMPLOYMENT

Through this initiative the G20 is promoting sustainable employment opportunities and prospects for the future for young people in rural areas, especially in Africa. The aims include enabling 5 million young people to benefit from training opportunities and 1 million jobs to be created for young people by 2022.

### CLIMATE AND ENERGY

#### G20 CLIMATE AND ENERGY ACTION PLAN

We are forging a global partnership for climate risk insurance schemes for the most vulnerable, helping developing countries implement their climate policies and expanding climate-friendly energy systems for poor people, especially in Africa.

### MARINE CONSERVATION

#### MARINE BIODIVERSITY AND THE BATTLE AGAINST MARINE LITTER

By launching an Action Plan against marine litter the G20 is signalling its collective commitment to the protection of the seas and the oceans.

### LEAVE NO ONE BEHIND

#### FINANCIAL SERVICES FOR DISADVANTAGED GROUPS

A new Action Plan has been agreed to help primarily women, young people, refugees and people in rural areas access formal financial systems.
