Worldwide opportunities
Let’s find them together!

Our goal is to identify opportunities for you in developing countries and emerging economies.

Use
the support and funding offered through German development cooperation:

- the develoPPP.de programme for development partnerships with the private sector
- cofinancing of feasibility studies
- investment and export loan guarantees
- DEG funding solutions

Find
the right partners on the ground by accessing our international and local networks.

Benefit
from the expertise of our EZ-Scouts when developing and realising specific project ideas.

On behalf of

Federal Ministry for Economic Cooperation and Development
New markets mean new opportunities. These are often not right on our front doorstep, but in developing countries and emerging economies. Our EZ-Scouts will show you how to best plan your activities there.

EZ-Scouts are experts working on behalf of the German Federal Ministry for Economic Cooperation and Development (BMZ).

In this context, development cooperation is all about the German Government, developing countries and emerging economies as well as business actors and civil society working with each other on an equal footing.

Our EZ-Scouts are your first point of contact. They work in business associations and regional associations as well as in Chambers of Commerce and Industry and Chambers of Skilled Crafts. In cooperation with Engagement Global, they are also involved in foundation organisations.

They will help you make the right choice for your company from the wide range of options offered by German development cooperation.

Vanilla from Madagascar
Around 80 per cent of vanilla sold worldwide is from Madagascar. In order to secure the income of local vanilla farmers and to increase their harvests, Symrise, a manufacturer of fragrances and flavourings, and food producer Unilever are providing them with training on sustainable cultivation methods. The companies are receiving support in this process as part of a develoPPP.de development partnership. www.develoPPP.de

Wind energy for Latin America
The projects of German wind energy provider SOWITEC, which is currently constructing nine wind farms in Argentina, Brazil, Chile, Colombia, Mexico, Peru and Uruguay, offer secure and sustainable energy for Latin America. DEG – Deutsche Investitions- und Entwicklungsgesellschaft mbH is SOWITEC’s funding partner for the projects. www.deginvest.de

Know-how for Myanmar’s textile industry
In the scope of a partnership, the Foreign Trade Association of German Retailers (AVE) is helping the Myanmar Garment Manufacturers Association to improve organisational structures. The objective is to strengthen social standards and to make member companies more productive through new advisory services and training courses. www.sequa.de
