

Germany's contribution to fast start financing 2012

(projects and programmes: commitments from 1 January to 31 December 2012)

Beneficiary Country/ Region	Thematic Area	Programme or Project Title	Implementation Period	Implementing Agency	Contribution (by million €)	Type (grant/loan)	Short Description of Action
Afghanistan	Adaptation	Diversification of Livelihoods in Baghlan	2010–2013	GIZ*	6.0	Grant	The project is concerned with the diversification of rural livelihoods, agriculture and irrigation methods.
Africa	Mitigation	African Carbon Asset Development (ACAD)	03/2012–12/2013	UNEP*	1.0	Grant	The facility will scale up carbon investment in Africa by providing small grants to overcome the initial transaction cost barrier of project completion.
Africa	Adaptation	Strengthening IGAD's Capacity to Increase Drought Resilience	Supplementary funds for ongoing project	GIZ	0.5	Grant	The project aims at strengthening capacity of the Intergovernmental Authority on Development (IGAD) to increase drought resilience in the Horn of Africa.
Asia	Mitigation	SCP4LCE – Sustainable Consumption and Production for Low Carbon Economy	05/2012–06/2015	GIZ	2.0	Grant	The project promotes low-carbon patterns of consumption and production in Thailand and other member states of the Association of Southeast Asian Nations by developing criteria for climate-smart products and services. These criteria are to be applied to particularly climate-relevant product groups within the states' existing ecolabelling systems, and are to be used as a basis for public procurement.
Asia Pacific	Adaptation	Coping with Climate Change in the Pacific Region	Supplementary funds for ongoing project (01/2009–12/2015)	GIZ	1.3	Grant	The project contributes to managing the impacts of climate change in the Pacific.
Brazil	REDD+*	Promotion of Protected Areas and Sustainable Management	Supplementary funds for ongoing project (01/2007–12/2014)	GIZ	1.2	Grant	The project aims at improving efficiency of management of protected areas and sustainable use of natural forests in the Amazonas Region in Brazil.
Brazil, Indonesia and 3 others	REDD+	Catalyzing Forest and Landscape Restoration in Key Countries	01/2013–12/2017	World Resources Institute	3.0	Grant	The project catalyses forest and landscape restoration globally and especially in Indonesia, Congo, and Brazil, thereby storing carbon and conserving biodiversity.
Burkina Faso	Adaptation	Promotion of Sustainable Agriculture	starting 2013	KfW*	2.5	Grant	The project provides assistance to improve the infrastructure for agricultural production particularly in the southwest and the east of the country. This includes the construction of dams and flood plains.
Burkina Faso, Ghana, Kenya	Adaptation	A Global Early Warning System for Climate Change - A Case Study for Designing the System	12/2012–12/2014	UNEP	0.6	Grant	This project presents the first stage in developing "CLIM-WARN", a global early warning system for climate change. CLIM-WARN will provide warnings for the most vulnerable parts of the world, within a time scope that allows reacting to the warnings.
Caribbean, Central America	REDD+	Reducing Emissions from Deforestation and Degradation in Central America and the Dominican Republic (REDD-CCAD)	Supplementary funds for ongoing project (10/2009–03/2013)	GIZ	2.7	Grant	The project enables member countries of the Central American Commission for the Environment (CCAD) to implement compensation measures of REDD+.
Central Africa	REDD+	Regional Support for the Central Africa Forests Commission (COMIFAC)	Supplementary funds for ongoing project (07/2011–06/2014)	GIZ	1.6	Grant	In line with the Convergence Plan, the project improves design and implementation of national forest and environment programmes as well as the representation of Member States' interests at the international level. The additional grant in 2012 focuses on the China-Africa Dialogue.
Chile	Mitigation	Energy Efficiency and Cogeneration in Public Hospitals (pilot project)	12/2010–10/2013	GIZ	1.2	Grant	This pilot programme focuses on the development and implementation of measures to increase energy efficiency and cogeneration in public hospitals. The aim is to apply this pilot model to other hospitals, primarily in the target areas worst affected by the earthquake in 2010.
China	Mitigation	Climate Protection and Electric Vehicles in China – Field Tests, Case Studies and Policy Advice on Integrating Renewables into the Growth Market for Electric Vehicles	01/2013–12/2016	GIZ	2.0	Grant	This project addresses the interfaces between transport, the energy industry, climate protection, innovation and the market. It is designed to support relevant decision-makers in developing strategies for rolling out electric transport, which will reduce levels of GHGs*.
China	REDD+	Low Carbon Land Use	03/2012–02/2016	GIZ	3.5	Grant	The project assists the Chinese government's efforts to achieve its GHG reduction goal by developing and piloting sectoral approaches in agriculture and forestry, aquaculture and mining landscape restoration. MRV* methodologies for GHG reduction are developed.
Colombia	REDD+	Piloting Nested REDD+ Accounting at National, Provincial and Project Scales for Results Based Payments in Colombia	01/2013–12/2016	Winrock International Institute for Agricultural Development	1.5	Grant	The project establishes a REDD+ system and register for Colombia that will incorporate project and provincial reference levels, as well as monitoring and reporting into national systems.
Columbia	REDD+	Development and Implementation of the National REDD Strategy with the Involvement of Biodiversity Conservation in Colombia	04/2013–03/2016 (planned)	GIZ	3.0	Grant	The project provides assistance to the Colombian Environment Ministry in the coordinated and participatory development and implementation of its national REDD+ strategy. To this end, it assists the coordination of the relevant sectoral ministries and other institutions related to deforestation and fosters the implementation capacities on the regional and local scale.
Columbia	REDD+	Promotion of Sustainable and Biodiverse Forest Production in the Coffee Area of Colombia	01/2012–12/2015	KfW	3.0	Grant	The project promotes sustainable forestry as an income supplement for coffee growers. Specifically, it supports reforestation with a focus on biodiversity.
Cote d'Ivoire	REDD+/Adaptation	Promotion of Agricultural Value Chains and Development of the Economic Region around Tai Park	Supplementary funds for ongoing project (new phase starting 2013)	GIZ	9.0	Grant	The project aims at developing adapted solutions for agricultural value chains for small farmers around the protected area of the Tai National Park, UNESCO* world nature heritage. By reducing pressures on forests resources the project will contribute to the protection of forest carbon stocks.
Cote d'Ivoire	REDD+	Protection of Biodiversity in the Tai Park	starting 2014	KfW	5.0	Grant	The project aims at exploring and developing biodiversity protection schemes around the Tai National Park. If the security situation and legal framework allows for cooperation, the park is to be connected to the Sapo Park in Liberia.
Democratic Republic of the Congo	REDD+/Adaptation	Programme Conservation of Biodiversity and Sustainable Forest Management	Supplementary funds for ongoing project (10/2012–09/2013)	GIZ	2.0	Grant	The programme supports the national and decentralized governmental institutions for natural resources management in cooperation with non-governmental actors to develop and implement an adequate political and operational framework for the forest sector and the management of protected areas.
Democratic Republic of the Congo	REDD+/Adaptation	Programme Conservation of Biodiversity and Sustainable Forest Management	10/2013–06/2016	GIZ	22.3	Grant	The programme supports the national and decentralized governmental institutions for natural resources management in cooperation with non-governmental actors to develop and implement an adequate political and operational framework for the forest sector and the management of protected areas. (continuation of a previous project, see above)
Democratic Republic of the Congo	REDD+	Biodiversity and Forestry Programme	Supplementary funds for ongoing project (phase II has started in 2012)	KfW	5.0	Grant	The programme promotes sustainable conservation of the rich biodiversity of the Democratic Republic of Congo as well as a sustainable forestry.
Democratic Republic of the Congo	REDD+	Conservation Trust Fund	starting in 2013 (planned)	KfW	7.5	Grant	This trust fund contributes to the sustainable financing of protected areas.
Democratic Republic of the Congo	REDD+	Development of a Carbon Storage Map and Carbon Payment Model Regions for the DR Congo Forest Belt	07/2012–06/2016	KfW	6.1	Grant	The purpose of the project is to comprehensively map the carbon content of the forest belt in the Democratic Republic of Congo with previously unattained accuracy and validity. The results will be used for the development of payment systems for environmental services and REDD+ on a model basis.
Ecuador	Mitigation	Climate Protection with Renewable Energies on the Galapagos Islands in Consideration of Electricity Production with Jatropa Oil	05/2012–12/2013	GIZ	2.1	Grant	The project advises the government of Ecuador and other relevant actors in the planning and implementing of an adequate mix of different renewable energies on the islands of Floreana and Isabela. It focuses on substituting fossil fuels with sustainably produced Jatropa plant oil in the field of electricity production.
Ghana	Adaptation	Innovative Insurance Products for Climate Change Adaptation	05/2012–06/2013	GIZ	1.6	Grant	The project develops climate-relevant agricultural insurance products for selected value-adding chains in Ghana, and supports marketing of these solutions.
Guatemala	Adaptation	Environmental Protection and Adaptation to Climate Change	01/2013–11/2015	GIZ	4.0	Grant	The project provides assistance to national ministries, regional governments, the private sector and the civil society in their efforts to improve environmental management and adaption to climate change, including watershed management and chains of agricultural production.
India	Mitigation	Climate-Neutral Energy Supply for Rural Areas	10/2012–12/2013	GIZ	2.1	Grant	The project develops tailor-made and sustainable solutions for rural energy supply that make use of locally available biomass (agricultural waste, inedible plant oils) as well as other renewable energy sources. The biomass is converted into electric power by means of biodiesel generator sets and gas engines.
India	Mitigation	Commercialization of Solar Energy in Urban and Industrial Areas in India (ComSolar)	10/2012–12/2013	GIZ	3.0	Grant	The objective of the project is to design suitable business models and to test them through pilot initiatives and to prepare a strategy for commercialisation of solar energy in urban and industrial areas. This supports the implementation of the Solar Mission of the National Action Plan for Climate Change.
India	Mitigation	Permanent Office – Indo-German Energy Forum (Phase 2: Climate Change Mitigation and Decentralised Power Generation)	04/2012–05/2015	GIZ	3.2	Grant	Through the permanent office already established in New Delhi, the project aims to enhance services and activities of the Indo-German Energy Forum (DIEF), e.g. by supporting cooperation projects, communication and reporting mechanisms.
Indonesia	Mitigation	Promotion of Least Cost Renewables in Indonesia (LCORE-INDO)	03/2012–02/2015	GIZ	3.0	Grant	The project assists Indonesia in planning and implementing renewable energy programmes that have the best cost-benefit ratio in relation to electricity generation and CO ₂ reduction. It provides capacity building for the renewable energy department and develops and tests cost-effective ways to substitute fossil fuels in collaboration with the private sector.
Indonesia	REDD+	Forest and Climate Change Programme	Supplementary funds for ongoing project (01/2009–12/2012)	GIZ	0.5	Grant	The programme supports public and private actors to implement an improved institutional and regulatory framework, as well as methods and services for sustainable forest management, nature conservation and the reduction of GHG emissions from deforestation and forest degradation.
Indonesia	REDD+	Forest and Climate Change Programme	Supplementary funds for ongoing project (2013–2015)	GIZ	0.6	Grant	The programme supports public and private actors to implement an improved institutional and regulatory framework, as well as methods and services for sustainable forest management, nature conservation and the reduction of GHG emissions from deforestation and forest degradation. (continuation of a previous project, see above)
Indonesia	REDD+	Policy Advice for Environment and Climate Change (PAKLIM)	2012–2015	GIZ	0.4	Grant	This project provides policy advice to the Indonesian Government for environmental protection and mitigation of climate change.
Indonesia	REDD+	Forest Programme Sulawesi	2014–2017	KfW	6.5	Grant	This project supports the implementation of the Indonesian climate strategy by implementing biodiversity and REDD+ related activities in critical watershed areas.
Jordan	Mitigation	Industrial Solar Cooling in Jordan	03/2012–02/2015	GIZ	3.3	Grant	The project initiates a switch from the present air-conditioning technologies in Jordan to alternatives based on solar cooling which are largely CO ₂ -free. It promotes Jordanian-German technology partnerships between firms and institutes.
Laos	REDD+	Integrated Nature Conservation and Sustainable Resource Management in the Hin Nam No Region	2013	GIZ	3.6	Grant	The project supports the government of Laos to develop an efficient park protection in the National Protected Area Hin Nam No. Measures will also focus on supporting sustainable forest management, nature conservation and the reduction of GHG emissions from deforestation and forest degradation, as well as developing alternative livelihoods.
Laos	REDD+	Climate Protection through Avoided Deforestation (CliPAD)	Supplementary funds for ongoing project (until 09/2014)	GIZ	0.4	Grant	The project provides national policy advisory services, capacity development and institutional support in the area of forests and climate change mitigation, including REDD+.
Laos	REDD+	Climate Protection through Avoided Deforestation (CliPAD) Phase II	starting 2014	GIZ	3.6	Grant	The project provides national policy advisory services, capacity development and institutional support in the area of forests and climate change mitigation, including REDD+. (continuation of a previous project, see above)
Laos	REDD+	Integrated Conservation of Biodiversity in National Protected Areas and Corridors	starting 2013	KfW	9.5	Grant	The government of Laos will be supported in the field of sustainable management of natural resources, with a focus on biodiversity, protected areas and corridors.
Laos	REDD+	Supporting the Laos-EU Forest Law Enforcement, Governance and Trade (FLEGT) Process	starting 2012/2013	GIZ	5.8	Grant	The project supports the government of Laos in fulfilling EU requirements for a transparent FLEGT process.

Beneficiary Country/ Region	Thematic Area	Programme or Project Title	Implementation Period	Implementing Agency	Contribution (by million €)	Type (grant/ loan)	Short Description of Action
Laos, Vietnam	REDD+	Exploring Mechanisms to Promote High Biodiversity REDD: Piloting in Vietnam	12/2012–11/2016	SNV Vietnam	1.5	Grant	This project, through research, policy advice and application identifies and tests possible mechanisms at the international, national and field levels which will help promote high biodiversity REDD+.
Liberia	REDD+	Protection of Biodiversity in the Tai-Sapo Forest Corridor (Sapo Park Liberia)	starting 2014	KfW	6.0	Grant	The objective of the project is to develop agricultural value chains for small farmers in the Tai-Sapo forest corridor, contributing to the generation of income. The project also aims at promoting biodiversity in protected areas.
Mauretania	Adaptation	Natural Resources Management Programme	01/2014–12/2016	GIZ	2.0	Grant	The programme aims at improving local and national capacities for the sustainable management of natural resources, contributing to the conservation of Mauritania's ecosystems. It will provide advice on and support (1) the use of natural resources to help alleviate poverty; and (2) the development of adaptation and mitigation strategies.
Morocco	Adaptation	Integrated Water Resources Management Tensift	01/2014–12/2018	KfW	4.0	Grant	The project promotes integrated water resources management in the Tensift region.
Morocco	Adaptation	Adaptation to Climate Change/ Implementation of the Nagoya Protocol	01/2013–06/2016	GIZ	6.0	Grant	The project supports adaptation to the impacts of climate change by implementing the Nagoya Protocol.
Niger	Adaptation	Rural Development and Productive Agriculture	Supplementary funds for ongoing project (01/2012–12/2017)	GIZ	2.3	Grant	The project aims at developing small farmers' irrigation practices and agricultural production in Tillabéri, Agadez and Tahoua.
Panama	REDD+	Protection of Carbon Pool and Sinks within Wetlands and Protected Areas of Panama	03/2013–03/2016	UNDP*	2.5	Grant	The project implements an array of measures designed to manage protected mangroves and other wetlands over an area of 13,800 hectare. The measures are to be monitored and assessed with regard to their carbon dynamics.
Paraguay	REDD+	Protecting Forest for the Benefit of Climate, People and Nature in Paraguay – a Multi-level Approach	09/2012–08/2015	WWF*	2.1	Grant	The project strengthens the capacities in Paraguay to protect and enhance forests and high carbon stock areas as well as ecosystems and social benefits in the key biodiversity areas. It focuses on developing and testing bottom-up-tailor-made REDD+ projects with local communities and indigenous people.
Peru	REDD+/ Adaptation	Programme for Protection and Sustainable Management of Natural Resource Management	2014–2016	GIZ	12.8	Grant	The projects strengthens the capacities of the Ministry for Environment and supports national resource management, conservation of biodiversity and agrobiodiversity, as well as sustainable forest management.
Peru	REDD+	Forestry Investment Programme	starting 2014	KfW	10.0	Grant	The programme promotes sustainable forest management in the Amazon region and thus contributes to the protection of tropical forests as a biodiversity hotspot and carbon sink.
Philippines	Adaptation	Supporting the Philippine Climate Change Commission	11/2011–09/2015	GIZ	3.0	Grant	The project strengthens the national climate commission of the Philippines in developing, implementing and coordinating the national climate strategy and the national climate action plan, as well as its integration into the planning system. Activities include applying an innovative monitoring system of effects of adaptation, supporting local climate-compatible planning, and implementing small-scale projects for better adaptation, mitigation, and protection and enhancement of carbon sinks.
Philippines	REDD+	National REDD+ System, Philippines	11/2012–04/2017	GIZ	5.3	Grant	The project aims at creating a national framework for reducing GHGs from deforestation and forest degradation. Measures include the establishment of a national implementation and coordination system; the development of REDD+ financial and participation mechanisms; extensive forest-related land-use planning in selected regions as a prerequisite for zoning and establishing land-use rights; the integration of ecological and social standards in implementing REDD+ measures; and awareness-raising and information/knowledge management.
Ruanda	REDD+	Preliminary Study: Piloting Multiple-benefit Investment "Packages" through Forest/ Landscape Restoration and REDD+ in Rwanda for Scaling Up in Central- and West Africa	01/2013–09/2013	IUCN*	0.2	Grant	This preliminary study paves the way for future financial participation in the REDD+ mechanism. The project will bring local public and private sector players together to construct, test and promote creative REDD+ investment "packages" through implementation of forest and landscape restoration, based on the integration of relevant REDD+ standards and the creation of favourable investment conditions.
Senegal	Adaptation	Decentralisation with Special Emphasis on Peace Development in the Casamance Region	Supplementary funds for ongoing project (2012–2015)	KfW	3.0	Grant	The project intends to strengthen the framework for sustainable decentralisation and efficient local administration. Construction of infrastructure is an important element. In this context, basins for desalination are built as a means of climate adaption.
South Africa	Mitigation	Development of Innovative Logistics and Supply Structures in the Refrigerated Transport Sector	06/2012–04/2016	GIZ	3.0	Grant	The project aims to encourage environmentally-friendly development in the transportation of chilled goods. This involves undertaking an analysis of the sector and a technical needs assessment as well as installing and demonstrating suitable technology on a pilot basis. Also, the project provides capacity building and implements a MRV system.
Tanzania	Adaptation	Sustainable Development Serengeti Ecosystem	03/2013–02/2016	KfW	10.3	Grant	The programme supports community-based conservation and benefit sharing, the management of the Serengeti National Park (SNP), and the improvement of social and economic infrastructure in districts at the northern borders of the SNP.
Thailand	Mitigation	National Energy Efficiency Plan as a Core Element for an Activity- and Evidence-based Mitigation Strategy	02/2012–04/2015	GIZ	3.0	Grant	The project supports the formulation and implementation of a national energy efficiency plan for Thailand, with the aim of tapping efficient and cost-effective potential. Furthermore, NAMAs* will be developed and tested as an implementation mechanism.
Thailand	Mitigation	Programme for the Development and Implementation of Climate Policy	02/2012–09/2013	GIZ	1.9	Grant	The project supports Thailand in the elaboration and implementation of the strategy on climate change and reduction of GHG emissions. International experts advise the various political bodies, and the necessary implementation capacities at the relevant institutions will be put in place. In addition, the project assists Thailand with regard to international cooperation in the area of climate policy and promotes awareness-raising and participation of society.
Thailand, Vietnam	Adaptation	Promoting Ecosystem-based Adaptation through Mangrove Restoration and Sustainable Use in Thailand and Vietnam	09/2012–02/2016	IUCN	1.6	Grant	The project promotes ecosystem based-adaptation (EbA) and mitigation by providing economic incentives for mangrove restoration and their sustainable use. Pilot projects test innovative financing that links climate change adaptation and mitigation, and sustainable aquaculture in mangrove ecosystems. Results will be fed into national and provincial laws, regional learning and global REDD dialogue.
Togo	Adaptation	Programme for Rural Development and Agriculture	2013–2014	KfW	2.5	Grant	The programme promotes sustainable agricultural development.
Togo	Adaptation	Programme for Rural Development and Agriculture	2013–2014	GIZ	1.6	Grant	The programme promotes sustainable agricultural development.
Tunisia	Adaptation	Development of Rural Regions in Tunisia	10/2013–12/2018	KfW	8.0	Grant	The project promotes the sustainable development of rural regions in Tunisia.
Vietnam	Adaptation	Integrated Coastal and Mangrove Protection in the Mekong Delta for Adaptation to Climate Change	Supplementary funds for ongoing project (08/2011–07/2014)	GIZ	0.8	Grant	The project is aimed at improving coastal protection, preserving and rebuilding mangrove forests, and securing a basic living income for the rural population in coastal areas in the Mekong Delta.
Global (Indonesia, South Africa)	Mitigation	Integrating Sub-national Actors into National Mitigation Strategies Through Vertically Integrated NAMAs	05/2012–04/2015	GIZ	1.9	Grant	The project develops an approach for vertically integrated NAMAs (v-NAMAs). It will trial this approach in cooperation with national decision-makers in selected emerging countries (South Africa and Indonesia) and sectors (pilot v-NAMAs), and use the experience gained to operationalise the approach to make it an element of international climate financing.
Global (Philippines, Turkey)	Mitigation	Building Momentum for Low Carbon Development in the Philippines and Turkey	04/2012–09/2013	WWF	0.5	Grant	The project establishes country specific Low Carbon Plans (LCP). These LCPs will be the basis to create momentum for the uptake of mitigation and adaptation targets and measures in government policies and programmes as well as by civil society and the business sector.
Global (Ghana, Mexico, Peru)	REDD+	REDD-Plus Benefits: Facilitating Countries and Communities in Designing Pro-poor REDD-Plus Benefit-sharing Schemes	12/2012–10/2015	IUCN	4.8	Grant	This project builds capacity and models benefit-sharing schemes for REDD+ activities. Aligned with the work plan of the REDD+ Partnership, it scales up actions needed for national REDD+ strategies under the Cancun Agreement.
Global (Indonesia, Mexico, Philippines, Tunisia)	Adaptation	Inventory of Methods for Climate Adaptation	04/2011–05/2013	GIZ	0.9	Grant	This supranational project supports decision-makers in partner countries with a proven inventory of methods for the identification, analysis and prioritisation of adaptation needs and measures. The goal is to improve the management of climate-related data and to promote the creation of a network for South-South exchange between the actors in the area of adaptation.
Global	Mitigation	Generating Expertise on Climate and Resource Protection in Young Management Professionals (Postgraduates) from Emerging Countries	06/2012–12/2014	Alexander von Humboldt Stiftung	1.3	Grant	The programme is aimed at young managers from the fields of science and economics, and from public and private organisations. It promotes exchanges of knowledge, methodologies and technologies as well as networking within the field of climate protection and resource conservation.
Global	Mitigation	Bringing a Range of Supported Mitigation Activities in Selected Countries to the Next Level	02/2012–01/2014	Energieonderzoek Centrum Nederland (ECN)	1.9	Grant	The project builds on previous extensive activities regarding NAMAs, LCDS* and technology innovation centers in order to bring a portfolio of projects from the proposal stage to the financing of concrete activities. Also, it completes an analytical report of the lessons that can be drawn from these instruments for climate policy making.
Global	Mitigation	Supporting International Mitigation and MRV Activities	01/2012–03/2014	GIZ	2.0	Grant	The project supports capacity building for members of the International Partnership for Mitigation and MRV. It disseminates refined information on LCDS, NAMAs and MRV concepts.
Global	Mitigation	Clean Technology Fund (CTF)	2012	World Bank	125.0	Loan	The CTF is part of the Climate Investment Funds (CIFs) and finances the scaled-up demonstration, deployment and transfer of low carbon technologies.
Global	REDD+	Long-term Financing for REDDplus - Analysis and Development of Investment Options for Private Actors in REDDplus Projects	08/2012–01/2013	Germanwatch	0.1	Grant	The project provides long-term financing for REDD+. Also, it analyses and develops investment options for private actors in REDD+ projects.
Global	REDD+	Forest Carbon Partnership Facility (FCPF)	2012	World Bank	14.0	Grant	FCPF assists developing countries in their efforts to apply the REDD+ mechanism by providing value to standing forests.
Global	REDD+	Advisory Project "International Forest Policy" IWP	2012	GIZ	0.7	Grant	The project provides advisory services for the further development and application of international forestry policies from a development policy perspective, and supports the integration of forestry-related issues such as sustainable forest management, climate change mitigation and adaptation, REDD+ and capacity development into German development cooperation.
Global	Adaptation	Pilot Programme for Climate Resilience (PPCR)	2012	World Bank	17.0	Grant	PPCR is a programme for climate change adaptation under the Strategic Climate Fund (SCF). It funds technical assistance and investments to support countries' efforts to integrate climate risk and resilience into core development planning and implementation.
Global	Adaptation	Special Climate Change Fund (SCCF)	2012	GEF*	8.0	Grant	SCCF is a specific fund to support activities and programmes related to the adaptation to climate change, technology transfer, energy, transport, industry and waste management in developing countries.
Global	Adaptation	The Least Developed Countries Fund (LDCF)	2012	GEF	15.0	Grant	The LDCF was established under the UNFCCC* and aims to address the special needs of Least Developed Countries (LDCs), which are especially vulnerable to the adverse impacts of climate change. This includes preparing and implementing national adaptation programmes of action (NAPAs).

total commitments 2012

432.8

From 2010 until 2012, Germany provided a total of 1.29 billion euros for fast start activities.

* GEF	Global Environment Facility	LCDS	Low carbon development strategies	UNEP	United Nations Environment Programme
GHG	Greenhouse gas	MRV	Measurement, reporting and verification	UNESCO	United Nations Educational, Scientific and Cultural Organization
GIZ	Deutsche Gesellschaft für Internationale Zusammenarbeit	NAMAs	Nationally appropriate mitigation actions	UNFCCC	United Nations Framework Convention on Climate Change
IUCN	International Union for Conservation of Nature	REDD+	Reducing emissions from deforestation and forest degradation	WWF	World Wide Fund For Nature
KfW	KfW Bankengruppe	UNDP	United Nations Development Programme
